

Nyssara

MOONSHADOW WOLF-DRAGON

In the twilight lands beyond the mists of Mystmere, where moonlight weaves silver paths across forgotten forests, there stirs a creature whispered of in old tales — the Moonshadow Wolf-Dragon. Known as Nyssara, her name means *song of the hidden moon* in the elder tongue.

Nyssara carries the spirit of the wolf — loyal, fierce, and ever watchful — yet her wings shimmer with the delicate patterns of crystal and butterfly, a gift of the dragon's eternal flame. Her scales glimmer in hues of twilight: shifting blues, violets, and greens, as though the night sky itself has taken form upon her.

Legends tell that Nyssara was born when the first wolf howled at the moon and the stars answered. From that union came a guardian of thresholds — protector of dreamers, keeper of secrets, and guide to those who walk between the seen and unseen.

Each Moonshadow Wolf-Dragon is a rare companion. They do not serve masters but walk beside those whose hearts echo with wonder and courage. To find one at your side is to be chosen — not by chance, but by destiny.
